Evening School Offers Book Discussion Class

The popular "Books of Yesterday and Today" class, instructed by Ken Carnahan, prominent Bay Area book reviewer, will be continued as part of the winter quarter program of Albany Adult Education Center.

The class meets each Wednesday from 7:30 to 9:30 p. m. in the Albany High School Library.

Carnahan is book editor of the Berkeley Daily Gazette, and has his own radio show, "Book Time," heard each Sunday at 11:15 over KLBX.

Carnahan's classes include the trend of modern literature as shown by the young, new writers; the growing popularity of science fiction, when first-class examples can be found to illustrate the subject; the influence of successful authors on beginners, as suggested by Somerset Maugham's "A Writer's Notebook."

With Carnahan for a guide, the world of books is an entertaining and lively place to be.

Quick Action of Firemen Saves Drowning Hunter

The quick action of Albany Firemen early Tuesday morning was credited for the rescue of an Albany duck hunter whose small boat had capsized in the Bay and left him struggling in the near-freezing waters for more than an hour.

The victim, John E. Noe, 34, a welder of 927 Polk St., was rushed to Herrick Hospital for treatment of shock and exposure. Playing the major role in the rescue was Fireman Harold Johansen, of 533 Talbot Ave., who was also treated for exposure.

Noe's converted airplane belly tank rowboat capsized and sank off the Albany City Dump about 8:15 Tuesday morning.

The welder shouted to shore for aid. Morley Biecum, Albany Dump attendant, heard the cries for help and phoned the police and fire departments for help.

Rushing to the dump, both police and firemen worked quickly to free a 10-foot boat moored 100 yards away. The boat was submerged and chained to a post.

Firemen cut the chain with special tools and Police Sgt. Vern Freeman hauled it with his car to the side of the pier.

Then Johansen began to paddle his way toward the victim, using a piece of scrap board as an oar. Reaching Noe, the fireman asked the shivering man whether he could hang onto the stern of the boat and Noe said he "thought he could make it."

As Johansen stroked back toward the pier an outboard motorboat, dispatched from the Berkeley Yacht Harbor, overtook the rowboat.

Noe, exhausted and half frozen, had to be carried up the six-foot bank to the waiting police ambulance.

Noe was able to tell police that he left his home at 6:30 a. m. to go duck hunting. He parked his car and trailer near the Albany dump office and embarked in his home-made pontoon boat.

Council OK's 2 Appointments

Eye Protectors Recommended for Legion Tie Party

Members of Albany Post No. 292, American Legion attending the third annual Christmas Necktie Party Friday evening at the Veterans' Memorial Building were cautioned by the entertainment committee today to be equipped with dark glasses or other eye protectors.

Veterans competing in the colorful contest must wear a tie received Christmas, 1949, the neckwear to be judged as the most artistic, the "loudest," most contrasting color scheme and the most comical. Committee Chairman Don Karns said the party is not a necktie party as staged in the olden days when men were hung by their ties. However, he added, the same rule will apply.

"The tie must be on the owner and he must be present to win," Karns said.

He said ties sent in anonymously, sent in with code numbers or sent by proxy will be disqualified.

"It is our hope that Albany Post will not have to dispose of a large number of unwanted Christmas ties. But in the event they are submitted anonymously, immediate steps will be taken to send the ties to some faroff part of the world."

Commander Le Roy Holland has announced that Friday will be the last day in which toys will be accepted for the "Toys for Tots" appeal.

"The toys should be new," Holland said, "and a letter attached from the donor."

Unruh Musicians Booked for PTA, Dads' Club Meet

Top musical talent from the Unruh Music Studios of Oakland will be featured in a half-hour program of piano and vocal selections January 10 at the annual joint meeting of the Dads' Club and P.T.A. of the Marin School.

The meeting will be held at 8 p. m. in the school auditorium. The Unruh Studio is the home of the "California Nightingales," a philharmonic chorus. Program was arranged by Bert Griffin, chairman.

Mesdames G. R. Geering and S. E. McGaw, co-presidents of the P.T.A., and Bob Gigler, president of the Dads' Club, will preside over the meeting. They will introduce officers of the respective organizations.

Following the musical program, the floor will be cleared for dancing with music provided by recorded music of top-name bands.

Final treat of the evening will be refreshments served in the cafeteria by Mesdames E. T. White and Gladys Taylor, co-hostesses of the P.T.A., assisted by Ed Combs and his committee. Mrs. Elmer Jacobson is in charge of decorations.

'Reber Plan' Author Speaks Here Friday

The public is invited to attend the meeting which will be held in the Kindergarten room of the new building.

Albany City Councilmen Tuesday night unanimously approved the hiring of two new firemen with the aim of liberalizing present regulations governing off-duty hours of local firemen.

The measure was approved on recommendations of Fire Chief Fred Pimental, who said under the new set-up off-duty men would not have to remain in the city unless emergency conditions existed.

Named to serve temporarily until a new Civil Service list is established were Louis Ghidella, 26, of 1023 Evelyn Ave., and Paul R. Miranda, 30, of 915 Taylor St.

Speaking from the floor, Chief Pimental said that the eligible list for firemen had expired and that a new examination was not scheduled until March.

Details of the new arrangement were worked out last week between Councilman Raymond Cleary, fire commissioner, and Chief Pimental.

Petitions signed by 143 residents were presented to the Council requesting a traffic signal be installed at Washington and San Pablo Aves. Danger of the intersection for pedestrians, particularly children, crossing San Pablo was pointed out in the petitions.

Local Scientists Develop Miracle Canning Process

Government scientists at the Western Regional Research Laboratory in Albany have developed a new sterilizing process which may lead to cheaper and tastier canned foods, the Agricultural Department announced this week.

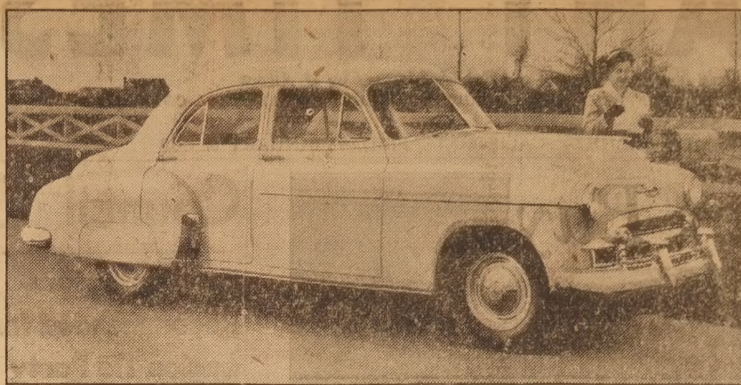

The still-experimental process involves use of an antibiotic named subtilin.

Subtilin is a member of famed fungus family of antibiotics which also includes penicillin, streptomycin and other "wonder drugs."

Drs. Ariel A. Anderson and H. David Michener of the Albany laboratory have found that minute quantities of subtilin, added to canned vegetables, will destroy bacteria and prevent spoilage without the need of extreme cooking.

The department cautioned, however, that "several years" of additional research will be necessary before the method can safely be recommended for commercial or home canning.

One of Two Sedans in 1950 Chevrolet Line

The Styleline, one of two individually designed sedans which have achieved immense popularity with Chevrolet owners, will have new beauty in 1950. Improved grille work, sturdier bumper guards and more tasteful ornamentation are some of the exterior improvements. New Chevrolet also offer increased power and comfort with the Powerglide automatic transmission as optional equipment on De Luxe models.

1950 Chevrolets on Display Saturday

The automatic transmission, hailed as the most revolutionary driving aid since the advent of the self-starter, makes its first local appearance Saturday at East Bay Chevrolet Co., 916 San Pablo Ave., with the introduction of 1950 Chevrolets.

Chevrolet's application is an exclusive development known as Powerglide. A product of company research covering the entire post-war period, it is the chief element in an optional, extra-cost "power-team." Included is a larger, more powerful engine and many refinements that extend throughout the line of new passenger car models.

*Also presented for the first time to the retail automobile market is the Bel Air, a luxurious, six-passenger coupe possessing the swank of the convertible with the practicality of the solid top.

Improvements through the 1950 chassis and bodies are many. A new "Power-Jet" carburetor eliminates the "lean" periods in gasoline feed and affords quicker warmup in cold weather. Larger exhaust valve capacity helps power output. Each of the six-cylinder passenger car engines follows the traditional, economical valve-in-head design. In the new bodies, stylists have accomplished striking effects with smart, two-tone upholstery and freshly-fashioned exterior metalwork.

The new carburetor applies to both engines. It introduces a concentric float bowl which prevents any "starvation" of the fuel metering jet regardless of sudden starts or the level of the road.

A direct drain has been added to prevent gasoline stains on rear fenders from fuel spilling during filling, ventpipes modified against wind roar, an improved rear vision mirror and glove compartment light repositioned to exclude glare are some of the other advances adding to 1950 Chevrolet quality. A novel touch is the inclusion of a whistle on the gas tank vent pipe to warn of approaching overflow.

New body colors are livelier than a year ago. Interiors are two-tone with tasteful greys being worked into the cushioning and paneling. The radiator grille has been redesigned to enhance grace and beauty. Bumper guards are higher and stronger.

Interested in Taking Census? 490 Are Needed

Albany residents interested in assisting with the 1950 Census to be taken in April may now file an application at the district headquarters in Berkeley, it was announced today by Mrs. Loyce C. Casbolt, district supervisor.

Mrs. Casbolt, recently returned from a special training school in Los Angeles, said that preliminary work on the local census is well under way. This includes organization of the district office, interviewing applicants for jobs and later, the training of office clerks, field crew leaders and enumerators.

Approximately 490 enumerators will be employed in this district, she said. The territory in the local Census District includes Albany, Berkeley, Emeryville, Piedmont and part of Oakland (the 7th Congressional District).

Application may be filed at the Bureau of Census, 2554 University Ave., Room 611, Berkeley.

Members attending were Mesdames C. K. Lockwood, Frank Schackner, A. Munson, Charles Markley, George Wilson and R. J. Rogers.

Guests included Mesdames J. Cave and Fay Sparks and Misses Gail and Lila Bertino.

Newlyweds Make Home in N. Mexico

Now making their home in Albuquerque, N. M., are Mr. and Mrs. Charles Kenneth Hartwigsen (Irene Fries) whose wedding took place last month in Orlando, Fla.

St. James Catholic Church of Orlando was the scene of the formally appointed wedding, and the bride's parents, the J. F. Fries, hosted the reception which followed at their home.

The bride is a graduate of St. Joseph's Hospital School of Nursing at Jacksonville, Fla. She was attended at her nuptials by her sister, Virginia Fries, also of Orlando, and was given in marriage by her brother, Joseph B. Fries, of the same city.

Charles is the son of Mrs. Edith Hartwigsen of Albany, and the late Peter M. Hartwigsen. He received his engineering degree from Heald's Engineering College in San Francisco and is presently employed as a technical representative for the Philco Corp.

I would like to take this opportunity to thank the Albany Times for the splendid cooperation given the following organizations in the matter of publicity for the past year:

Cadet Berkeley No. 1049, Catholic Daughters of America; Confraternity of the Blessed Sacrament, St. Mary Magdalen's Church; Berkeley Chapter, Third Order of St. Dominic and St. Albert's Guild.

EVELYN F. KANE,

"Calling Tokyo...4250"

How overseas service puts the world by your telephone

1. For doing business and keeping in touch with friends, overseas telephone service has become an everyday tool. In its twenty-two years, the calling rate has jumped from about 2,300 calls a year to 600,000. Today, your voice can be sent over short-wave radio to ninety-four per cent of the world's telephones . . . over circuits as long as 8,000 miles.

3. In 1927, the lowest overseas rate from the West was \$84.00. Now the maximum to most countries is \$12.00 (plus tax) for three minutes. Many calls cost less. Making it possible to call almost anyone, at low cost, is another way we've made your telephone more valuable.

2. Skilled technicians in the circuit room keep constant watch on their equipment to make sure your voice can travel earth and still sound about as clear as a town call. And overseas service is easy. Your Long Distance operator will give rates, the best time to call . . . and set appointment call for you if you wish.
